

TLX

**LESS TALK.
MORE DRIVE.**

Type S

The wait is over. This is the thrilling return of Type S performance. We've upped the ante on our performance pedigree, getting back to our roots and ushering in a new era of Acura performance. At its core is an Acura-exclusive 3.0L turbo, V-6 engine connected to our torque-vectoring Super Handling All-Wheel Drive™ system. When the time comes to finally pull back the curtain, it's bound to be more of an unleashing than an unveiling.

RETURN TO FORM.

TLX Type S preproduction model shown. Production model may vary.

EVERYTHING'S CHANGED

BUT OUR PHILOSOPHY.

When driving enthusiasts get together for secret underground meetings, they aren't designing a conventional sedan. They're designing a vehicle to rival the best sports cars in the world. That's exactly how Acura began. That same passion went into the ground-up redesign of the 2021 TLX, only now with more than 30 years of high-performance car building and world-class racing under our belt. Every grease-covered rag and white-knuckled lap—our blood, sweat, and speed—we put it here. When we say Precision Crafted Performance, it's not just lip service, it's our birthright. This is the all-new 2021 Acura TLX.

TLX SH-AWD with Advance Package shown in Performance Red Pearl with optional accessories.

ACTION SPEAKS LOUDER.

Entirely reengineered for 2021, the TLX is built on the most rigid sedan chassis Acura has ever created. It also marks the return of the race-inspired double-wishbone front suspension for improved grip and handling and an NSX-inspired Electro-Servo Brake (ESB) system.

The engine bay is home to an all-aluminum powerplant—a 272-hp, VTEC® turbo, direct-injection engine paired with a 10-speed automatic transmission for enhanced performance and acceleration off the line. With the Sequential SportShift paddle shifters, all that power is at your command.

TLX SH-AWD with A-Spec Package shown in Platinum White Pearl with optional accessories. TLX SH-AWD with A-Spec Package shown in Apex Blue Pearl.

For high-speed stability and low-speed agility, we added variable-ratio Electric Power Steering and an available TLX-first Adaptive Damper System. And with an Integrated Dynamics System with four unique drive modes, including the new Individual mode, the driver can customize their drive. Passing lanes, city corners, twisted forest roads, and even a daily commute all become new again.

INTEGRATED DYNAMICS SYSTEM

**4 MODES:
COMFORT - NORMAL - SPORT - INDIVIDUAL**

TLX SH-AWD with A-Spec Package shown in Platinum White Pearl.

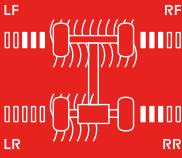

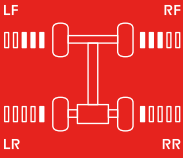

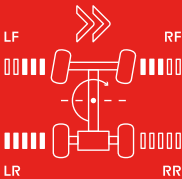

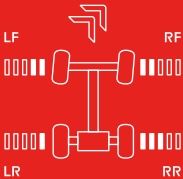

TLX SH-AWD shown in Lunar Silver Metallic.

SH-AWD

**FOR WEATHER.
OR NOT.**

TLX SH-AWD with Advance Package shown in Performance Red Pearl with optional accessories.

The power of Super Handling All-Wheel Drive isn't reserved for off-road or bad weather. Its full potential is realized with high-performance driving. Available SH-AWD® is a torque-vectoring system that adapts to the driver, delivering superior maneuverability and high-performance handling. This groundbreaking technology sends power to the wheels that can use it most to enhance individual wheel speed and even help rotate the car for tighter and more precise cornering and control.

TLX SH-AWD shown in Lunar Silver Metallic with optional accessories.

POWERFUL BODY LANGUAGE.

The dramatic aesthetics of the redesigned TLX emphasize the power underneath. Sharp body lines and a low, wide stance give it a muscular appearance. Up front, the long, sculpted hood flows into the distinctive Diamond Pentagon Grille and next-gen, four-lamp Jewel Eye® LED headlights with Chicane™ daytime running lights inspired by the ARX-05 race car. Moving along the side, the performance proportions and sheer lines sweep out to the wide rear fenders, adding to its already powerful stance. It not only stands out on the road, it's unlike anything else on the market.

TLX SH-AWD with A-Spec Package shown in Apex Blue Pearl.

TLX SH-AWD with A-Spec Package shown in Apex Blue Pearl.

A-SPEC

With the TLX A-Spec® Package, the performance styling gets turned up to 11. A-Spec badges and a piano-black decklid spoiler roll on 19-inch Shark Gray alloy wheels, emphasizing the TLX's wide stance and sporty appearance.

TLX SH-AWD with A-Spec Package shown in Platinum White Pearl.

FAST HAS A NEW FAVORITE COLOR.

TLX SH-AWD with Advance Package shown in Phantom Violet Pearl.

ICONIC DRIVE AMBIENT LIGHTING

27 UNIQUE THEMES

COMFORT ZONE.

The TLX's cabin takes its cues from a jet cockpit, only far more comfortable, with first-class premium materials such as genuine aluminum, available authentic open-pore wood trim, and 16-way power adjustable perforated Milano premium leather sport seats that can both heat and ventilate. And for those who don't wear driving gloves, there's an available heated steering wheel. Illuminate it all with available Iconic Drive™ ambient cabin lighting with 27 unique themes.

TLX SH-AWD with A-Spec Package shown with Ebony interior.

A-SPEC

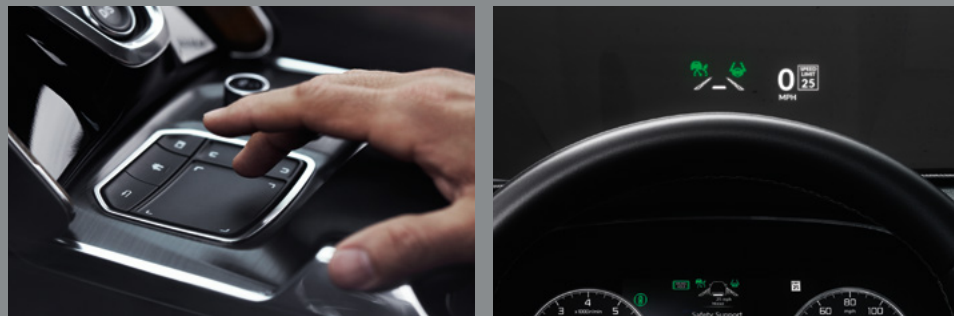

Performance design gets kicked into high gear with the available A-Spec Package, featuring a flat-bottom sport steering wheel, stainless steel sport pedals, metallic Sequential SportShift paddle shifters, and Ultrasuede®-trimmed perforated Milano leather sport seats.

TLX SH-AWD with A-Spec Package shown with Red interior.

The only way to advance the automobile is to have the courage to challenge convention. We pushed those boundaries everywhere we could and put them right at your fingertips. The 10.2-inch HD Dual-Content Center Display gives direct access to the entire audio and connectivity suite through the True Touchpad Interface.™ This innovative technology operates similar to a touch screen. Wherever you touch on the pad, the interface responds, mirroring that position directly on-screen.

The Technology, A-Spec, and Advance Packages include the Acura Satellite-Linked Navigation System™ providing turn-by-turn guidance and natural language voice recognition! And the available 10.5-inch full-color Head-Up Display projects crucial driving information on the windshield so the driver never has to take their focus off the road.

LESS IMITATION. MORE INNOVATION.

TLX SH-AWD with Advance Package shown with Ebony interior.

CONNECT TO ROAD AND DRIVER.

We get it. Nobody leaves home without their phone. That's why Apple CarPlay® and Android Auto™ integration come standard, along with an available wireless charging pad to keep that smartphone fully charged.² Wi-Fi Hotspot can connect up to seven mobile devices at a time to websites, podcasts, texts, tweets, tunes, and more.* And access your Acura from almost anywhere through a smartphone with the AcuraLink® app.³ Services are available in four levels—Basic, Security, Remote, and Concierge—each providing you with comfort, care, and peace of mind.

*Requires AT&T data plan.

SPEAKS VOLUMES.

Turn the TLX's cabin into a concert hall with the available ELS Studio® 3D Premium Audio System tuned by eight-time Grammy® award-winning producer Elliot Scheiner. Seventeen speakers, meticulously placed around the cabin, including four ceiling-mounted speakers and a new Twin Telford™ subwoofer design, come to life with 710 watts of power. Over the airways, streaming digitally, or playing your own playlist, this is music as it's meant to be heard.

ELS STUDIO 3D

SAFETY FIRST.

In the realm of safety performance, if you don't come in first, you might as well be last. That's why our suite of advanced safety and driver-assistance technologies comes standard on every sedan and SUV we make. AcuraWatch™ supports the driver with a suite of active safety and driver-assistance technologies that help keep the driver alert and reduce fatigue by continuously monitoring the vehicle's surroundings, warning of potential hazards, providing steering input to help keep you in the center of a detected lane and, if necessary, automatically braking the car in emergency situations to avoid a frontal collision.⁴

With the Technology, A-Spec, and Advance Packages, front and rear parking sensors warn the driver when they're cutting it too close to an object. And in case of an impact, in addition to front side airbags and side curtain airbags, the TLX features front knee airbags as well as a world's-first next-gen passenger front airbag featuring three chambers that protect and cradle the head.

TLX SH-AWD with A-Spec Package shown in Apex Blue Pearl. TLX SH-AWD with A-Spec Package shown in Platinum White Pearl with optional accessories.

AcuraWatch comes standard on all Acura sedans and SUVs.
